

PRIMUS PRIVATE SCHOOL, DUBAI

THE Primus Mirror

APRIL-JUNE 2021

The most beautiful thing about education is that nobody can snatch it away from you. This very first edition of the Primus Mirror for the year 2021- 2022 is one that's filled with fun learning experiences for all of us to cherish for a lifelong. Be it our little kindergarteners or the young adults in secondary school, all of us have had our share of lovely school experiences, albeit in a virtual setting. Starting off with a grand welcome for the new school senate, the chain of celebrations for the term continued.

We did not let the boundaries of virtual settings confine us to classrooms alone! Primus has celebrated every festival, every event, and all the happiness collectively with the students. Be it the Holy Month of Ramadan, showing gratitude to Mother Earth through Environment Day, or competitions of any sort, students have come up with an overwhelming response showcasing their myriad talents here. This was just a sneak-peek; let the wide display of student talents unfold as you flip through the pages of Primus Mirror!

This issue of the Primus Mirror has been compiled, edited and portrayed solely by Primus Editorial Board with the guidance and support of our dear teachers.

On the way to kindergarten...

EARTH DAY- PRE-KG

Earth Day is a day set aside to remind us to care for our planet. We reflect on our world and our environment, raise awareness of our concerns, and discover what we can do to help keep the Earth healthy.

We at Primus strongly believe that each individual can contribute in his or her own unique way to make this day a triumph. With our fun and educational activities, our tiny tots too will learn how to take care of our Earth.

Earth Day serves as a reminder to all of us to keep the environment in mind as we go about our daily lives. A day to remember to keep doing the small things that assist the environment, such as turning off lights, conserving energy, planting trees, recycling, reducing, and reusing. We celebrated Earth Day in class with several activities to emphasize the significance of environmental conservation for human life.

EARTH DAY – KG1

The 22nd of April is marked as Earth Day each year to raise awareness among our kindergarteners about the importance of conserving our planet and preserving the environment. Saving water and energy, preserving wildlife, plants and trees, and recycling garbage are just a few of the ways we can help save our planet Earth.

Talking to children about the importance of a clean, green, and healthy world, as well as how significant their tiny efforts in caring for the environment are, helps children to practice the skills of learning and appreciate the little effort they have done.

EARTH DAY-KG2

Earth Day was celebrated on 22nd April 2021. Children were encouraged to share their ideas on how to take care of the earth. The beautiful young minds came up with some fantastic ideas on how they could work towards helping save the world. Some of the ideas were planting trees, switching off lights, practicing the 3R's (Reuse, Reduce, Recycle), closing the tap while brushing, and taking shorter showers. The students were encouraged to make a huge difference in the world by beginning with easy and simple initiatives. Kids also spread awareness about the Earth Day by making posters with their ideas on what they can do to protect the earth. The teachers encouraged the kids to take part in earth hour by having a candlelight dinner with their family and switching off all the lights and electronics. All the students indulged themselves in the fun and exciting activities.

Activity 1: Make Earth Day poster showing your ideas on how to save earth.

2. Students were encouraged to talk about the different ways they can adopt in order to protect and save the environment. They were requested to send their videos to their teachers. Below is the link of few videos collated.

<https://drive.google.com/file/d/1hxxX8ZixeWZRUSUi4r3rPIDFnBKq5kwQ/view?usp=sharing>

<https://drive.google.com/file/d/1EOcPQCHVLPrenM6zjUXat61tqKhfe1DP/view?usp=sharing>

3. Earth Day challenge: Students were encouraged to have candlelight dinner with family to celebrate earth day at home.

4. Story time: Students discussed how they can help the planet in different ways through stories.

MOTHER'S DAY – KG2

Date of celebration: 11th May 2021

Mother's day is a momentous occasion that celebrates the care and effort that our dear mothers put into all our lives. Students, along with their mothers, had attended the celebration. Many activities were planned for the kids to express their love and gratitude towards their mothers.

Activity 1- The kids made a DIY crown. Students made a crown and decorated it for their mothers. They then crowned their mother and spoke a few lines about how special they are for them.

Activity 2- Kids expressed their love through a group song
"Mommy, Mommy, I love you mommy..."

Activity 3- To make the event more special, mom and child were dressed alike. They did a ramp walk together and danced with each other.

<https://drive.google.com/file/d/1xezbPia--TV6Ie4k85BF2ts0g7l-shc6/view?usp=sharing>

EID CELEBRATION - PRE-KG

Date of celebration: 11th May 2021

The term Eid means "festival" or "feast" in Arabic. Muslims celebrate this day by offering special prayers and spending time with their family.

Muslims are taught to ask Allah and those close to them for forgiveness.

They also provide gifts to children and those in need.

The students of pre-kg celebrated Eid with a fruitful experience with various activities. They had a great time partaking in the activity.

Through these activities they understood the value of sharing.

<https://drive.google.com/file/d/1qGyi3v6A1bGjg7VOqaD6-5bCiPgGXrZz/view?usp=sharing>

EID CELEBRATION - KG 2

Date of celebration: 11th May 2021

Eid al-Fitr means "the feast of breaking the fast." It is a religious holiday celebrated that marks the completion of Ramadan, a month-long fast that begins at dawn and ends at dusk.

Eid al-Fitr features two to three days of celebrations that include special morning prayers. People greet each other with "Eid Mubarak," meaning "Blessed Eid" and with formal embraces. At home, sweet meals are made and gifts are offered to kids and others in need. Muslims are also taught to forgive and ask for forgiveness. Eid is best when spent with loved ones and this is the perfect time to do so. Although quarantine and Eid don't go together, our school found various activities through which the students could celebrate Eid as well as understand the importance of Eid.

Our school celebrated Eid on 11th May, 2021. The kindergarteners were dressed up in ethnic wear. The day began with a discussion and exchange of knowledge on why we celebrate Eid and its significance, followed by various activities. The creative young ones built their own lanterns out of construction paper and embellished them in various ways. They made sweets (Stuffed dates) with different nuts, fruit slices, peanut butter, etc. They also wished their parents, teachers, and siblings "Happy Eid".

ART & CRAFT -KG2

We give the little angels the chance to express themselves in the form of learning, exploring and adventuring. These thrilling yet, admittedly messy, activities are just the ticket.

Art allows a child to bring out their imagination into paper in a fun and creative way. It also helps encourage a child to practice grasping and proper technique utilizing tools in much the same way they would while writing. Recognizing the colours and identifying the colour names is an essential part of a child's development.

Children learn how to hold a paint brush, how to make strokes and they also learn how to express their artistic perception in ways that no one would think possible, pushing the boundaries between reality and dreams with artistic notions that challenge the status quo. They were also introduced to new terms such as primary and secondary colours.

While playing and getting creative with clay they also learn how to use various mediums to transform it into an immersive experience that teaches not only them, but everyone around them, to allow them to express their visions on the world in a way that they deem suitable. They also gain strength and improve dexterity in their hands and fingers, critical areas of physical development for writing, drawing, and other purposes.

Some of their artistic works are displayed below:

World Environment Day Celebration - KG 2

Let's nurture the nature so that

The world environment day is celebrated every year on 5th of June to raise global awareness, to take positive environmental action, to protect nature and the planet earth. It is a day that encourages people all around the world to participate in environmentally beneficial activities. From school children to community groups, companies and governments, all come together to make a commitment to making the world a greener place. Keeping this aim in view, KG 2 children were briefed about the importance of this day.

Every year, the school celebrates Environment Day to teach students about the three P's: Protect, Preserve, and Promote Mother Earth. This year, the students were taught about the 3R's (Reduce, Reuse & Recycle) and the SDG Goals. They dressed up with clothes made from recyclable material/waste and did a ramp walk. They also made a bird feeder using recyclable materials.

The event was conducted successfully with enthusiastic participation and awareness for a healthier and sustainable world.

LEMONADE DAY – KG2

"Nothing tastes more like summer than a refreshing glass of lemonade."

Kindergartners at Primus Private School celebrated Lemonade Day from 13th to 17th June 2021. The activity was organized for classes Pre KG, KG 1 and KG 2 on the topic 'How to make summer cooler' with the motif of knowledge sharing with the students. The activity's goal was to instill self-reliance in the kids by requiring them to prepare lemonade on their own.

They tried to prepare a balanced lemonade with different ingredients and then sat down with their family to enjoy the refreshing drink. Our budding artists also decorated pictures of lemons, which they themselves sketched and colored.

Mrs. Neha Mehta, the head of kindergarten, visited all of the classes during the activity, praising the children's work and giving them advice on how to garnish their glasses, as well as motivating them. With the invigorating scent of lemon, the kindergarten kids were energized throughout the day.

POURING ACTIVITY – KG1

Kids can be messy. However, they can only improve if they are given opportunities to learn from their errors.

The kindergarteners were given a session on how to pour water. It isn't the most appealing and interesting activity, but it is undoubtedly one of the most essential one. Through this activity, they learned how to pour quickly, for how long they should pour water, and when to stop pouring. It increases their concentration as well as their hand and eye co-ordination to what they were seeing and feeling.

https://drive.google.com/file/d/1ksZ_9kT-LmjPv4Usec8T4IlkULpBUhZu/view?usp=sharing

STEM ACTIVITY – REUSE & RECYCLE – KG 2

Teaching children how to reuse and recycle at a young age is essential for developing this habit in them and ensuring that they continue to do so throughout their life. Early childhood education programs are great for fostering in value of recycling and reusing in kids. Recycling activities can be taught in fun and exciting modes such as through games, songs, handicraft projects, etc.

We at Primus inculcate the value and importance of recycling in our children at an early age. During the STEM courses, the young creative minds made some wonderful creations using recyclable materials such as a tissue box, empty toilet paper rolls, plastic bottles, and an empty carton. Some have made a robot or a piggy bank while others have created a pen stand, photo frame, and a flowerpot.

The students put on a fantastic activity, and all of the kids learnt how to make different products out of recyclable materials while saving money Overall, it was an enjoyable learning experience for all of the kindergarten students.

FATHER'S DAY - KG

Father's Day is a celebration honoring fathers and celebrating fatherhood, paternal bonds, and the influence of fathers in society.

On June 21, 2021, the kindergarteners at Primus Private School celebrated Father's Day with zeal. The event was organized for Pre-KG, KG 1, and KG 2 students. The activities were set up to encourage fathers and kids to spend quality time together. Children wore costumes to resemble their fathers. Children also sang a beautiful song to their fathers. On the same day, children, along with their fathers, performed a few yoga exercises together in honor of International Yoga Day 2021.

A game called "Our hands are tied" was organized for the father-child duo. Making a Father's Day card and a mango delight by KG2 added to those memorable moments.

PKG and KG1 prepared a Pasta salad using the ingredients of their own choice. It was delightful to see them working together to make the salad. It was a feast to the eye to see them relishing the food items they prepared.

The spirited celebration came to a close with fathers sharing their thoughts about the occasion. They commended the efforts of teachers and school officials for coming up with the novel concept of including fathers in such festivities and assisting them in developing strong relationships with their children. It was a remarkable occasion that the fathers and children will remember for the rest of their lives.

<https://drive.google.com/file/d/1DagsweHB3N4ndrMTy6UIJZmV1XmMGOund/view?usp=sharing>

FLIPPITY FLOPPITY HAT DAY – KG2

With regards to the World environment day on June 5th the kindergarten classes celebrated Flippity Floppity Hat Day.

To encourage environmental awareness among the students, the Kindergartners made fun hats made out of recyclable materials like newspaper, old magazines, cardboard cut outs etc.

Students came up with unique and creative recycled hat designs and shared their ideas on how they can save the environment in different and unique ways.

The teachers encouraged students to talk about harmony among all living things on the planet and how as kids, even they can bring about a change in the environment and save the Earth from pollution.

VIRTUAL SPORTS MANIA 2021 – KG

Sports Day is a significant activity because it emphasizes the benefits of physical activity for students. Physical activity boosts metabolism and is beneficial to one's health. Those who participate in sports on a regular basis stay in shape for the rest of their lives.

We realized the importance of having Sports Day more than ever during the COVID-19 pandemic, when most of us were reluctant to walk out of our house.

Keeping this in mind Primus Private School, Dubai conducted "Primus Virtual Sports Mania 2021" virtually on 20th June for PKG and KG1 and on 22nd June for KG2 with great zest.

Various fun and innovative activities were devised to contribute to the growth of children's gross motor abilities and mental agility.

The students were geared up with the sports track pants, green/black T-shirt and cap to perform the activities.

The Virtual Sports Day started with welcome note and national anthem. All the Kindergarten students took part in the mass drill and in several games and activities such as Speed Bounce, Throw, Clap & Catch, Balance Your Body, lemon and spoon and so on. Not only did the students take part, even the teachers and parents actively took part in special games like stack up the cups and blow the balloons in 30 sec. Parents and teachers applauded and cheered for the children, encouraging them to do their best in all the activities. It was an immense pleasure to see our little champs engage in the activities with such vigor and zest.

The main objective of this Annual Sports Day was to bring out and instill a sense of sportsman spirit in all the students and that was well accomplished.

All the students, parents, and teachers thoroughly enjoyed the day.

Primus Primary Portrayal

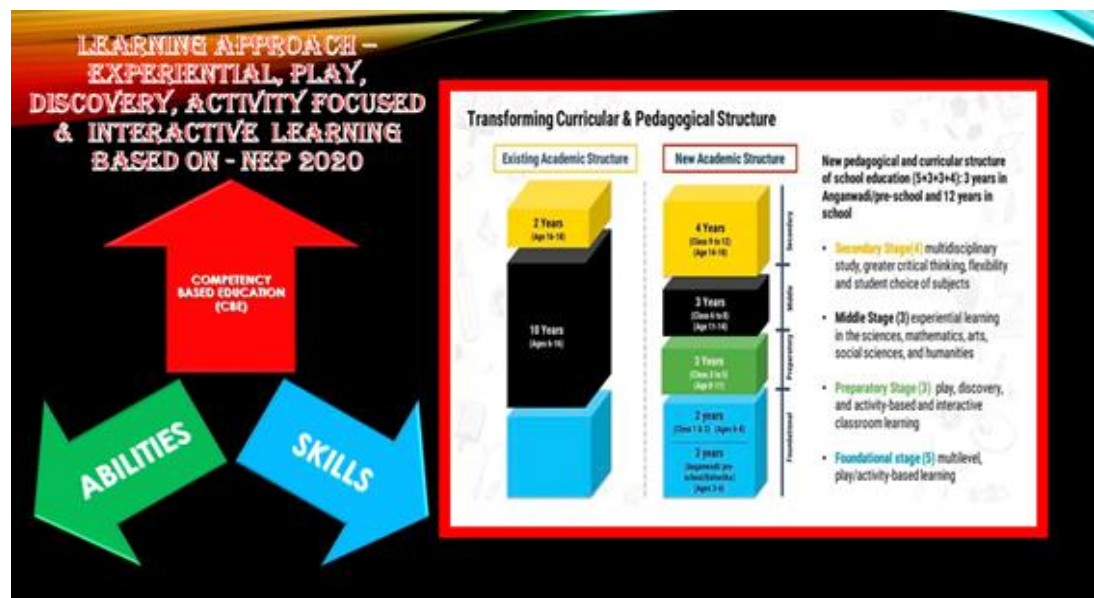

PARENT ORIENTATION –GRADES 1 AND 5

An orientation programme was organized for the parents of grades 1 and 5 on 1st April 2021. The programme commenced with a warm welcome speech by our principal, Mrs. Arundhati Rawat and she also encapsulated the need to encounter the challenges of the new virtual education system. Primary supervisor

shared the curriculum and academic updates with the parents. Senior supervisor familiarized them with the assessment patterns for the current academic session. It was a fruitful and enriching experience for all.

"A parent is a teacher at home, a teacher is a parent in school and the child is the center of the universe."

ISLAMIC AND ARABIC WEEK & RAMADAN CELEBRATIONS

Ramadan teaches our community to be more compassionate and empathetic. Primary department put together diverse programmes to ensure students have a plethora of opportunities to celebrate this Holy month. Activities include student-led live Ramadan assemblies, Quran competitions, students' tips to live the true spirit of Ramadan, Ramadan facts and FAQs written by students, and many other events that focus on Ramadan values. Skits and songs performed during the assembly highlighted on the benefits of fasting and charity to the needy during this month. Various activities were designed to instill moral values in students, and they participated with great zeal and enthusiasm.

EARTH DAY

Students of the primary section celebrated Earth Day with full zest on 22nd April 2020. The students virtually engaged themselves in meaningful activities to express their love and respect for Mother Earth. On the Earth Day, an array of creative activities was organized with a view to sensitize the children about the conservation

of natural resources and to motivate them to do their part towards making our planet even more beautiful. Activities like 'Poster Making' and 'Presentations' gave the students a platform to showcase their artistic and creative skills. All these activities rekindled emotive concerns and instigated the students to save, love and respect Mother Nature with all their heart and soul. Through a myriad of activities, the students understood their responsibility towards nurturing the environment.

MOTHER'S DAY

"A Mother Is One Who Can Take The Place Of All Others, But Whose Place No One Else Can Take."

The bond of a mother and her child is inexplicable. To celebrate this bond of affection and love, Primus Private School celebrated Mother's Day through virtual programmes. Students of grades 1 and 2 organized a fun filled day on 6th May 2021. Tiny tots came up with their presentation of songs, rhymes and dance to convey gratitude to their moms for their unconditional love. Mother's Day celebration was conducted with an intent to salute the efforts of all the mothers and to give them a chance to enjoy the love their children shared through various activities throughout the day. It was a memorable day for every mother and her child.

WORLD ENVIRONMENT DAY

World Environment Day is celebrated across the world on 5th June every year. Since 1974, World Environment Day is the most remarkable day for environmental action. The theme of World Environment Day 2021 is Ecosystem Restoration. Ecosystem Restoration can happen by actively planting trees or by removing pressures on the ecosystem by protecting environment and reducing the increasing level of pollution. To ignite the passion for innovation and explore the sustainable alternative students took part in many online activities like poster making, presentations, fashion shows etc. Through these myriad activities, the students understood their responsibility towards nurturing the environment.

STUDENTS CORNER

DISTANCE LEARNING - HERE WE GO!

Distance learning has begun, impatient the students may seem,
Hovering here and waiting there, to talk to their
teacher through MS TEAMS!

The background is selected, surely with extra care,
With hopes held very high, that the teacher will surely see it
there!!

The sweet call is made and the teacher shares her screen,
The students are excited and shine like the silver sheen!
While parents hoped that the teacher would help them through it
all,
Matters went haywire and things soon began to fall!!

The microphone stopped working, the connection was bad,
The internet was down, and each one blamed their dad!
But our teacher calmed down all our fears,
And the solution to all our problems began to appear!!

With a patient smile, the teacher made us at ease,
To the locks of all my troubles, she always had the keys!
The children were relieved to finally hear their name,
They shouted loudly, 'PRESENT MAAM', when their turn came !!

The children began their work, not little did they mind,
Subject after subject, they all excelled and shined!

They thanked the teacher kindly, as she waved goodbye,
And as the TEAM meeting ended, the teacher let out a sigh!!

But I heard her exclaim as she went out of sight,
You are doing great with distance learning; it will be soon
alright!!!

When it was mother's day
I was searching for a beautiful pink flower,
But couldn't get any...
My friend was near me, as she was playing with bubbles.
A big strong bubble appeared and came to me.
Inside the bubble it had a beautiful pink flower
With yellow in the middle and it had green designs...
I ran to my mother with the flower and I told her,
MY MOTHER IS A FLOWER!
That's the gift for my mother!

Anice Nessi Sebin-4C

A Great Friend

When you smile,
I get a reason to cheer,
All The special moments so rare,
The time we spend my dear,
With you, life is so meaningful,
My friend you are truly wonderful,
Love you a lot!

JESVIN RUBLE-4B

FRIEND FOUND IN MUSIC

Music makes my day
Without it I can't stay

With music the world dance
And my heart feels with glance

Listening to music we forget stress
It makes us happy and fresh

I like to listen to the singer
who sings

And see the birds flying with the
help of their wings

ELDRICK 4-A

Brother **My** Friend

*He teases me when he has
Nothing else to do,
He pulls on my pony – tail and asks,
"Does it hurt you?"*

*Bites me often, makes me cry,
Then comes with cream to apply.
Together we like to do coloring,
Also we play blocks building.*

Because I have a brother
I always have a friend.

Ilham Ali – 4C

THE COLORFUL RAINBOW

Rainbow, Rainbow let your fans grow.

Everyone love you, I love you too!

Colorful makes you beautiful

that's why, you are colorful.

You have to be colorful - that's must

then only, you will be the best.

You are seen in all the scenery

of you only, there is greenery.

Rainbow is very gay

just say yay yay!

My School

- M - Memories never end
- Y - Yet waiting for the school to open
- S - Special friends and super teachers
- C - Classes are more interesting
- H - Home when teachers give help
- O - Online classes are informative
- O - Our school is the best
- L - Lucky to be a part of Primus Private School

Waterfall

Every morning I wake up

To hear the sound of the Waterfall,

Oh, how big it is, and tall!

It's beautiful to look at, both day and night,

It's like a big blue light!

Its flowing sound is so relaxing and pleasant to hear,

Animals and birds come to drink water here.

I use the water there to drink,

It is so deep that you can sink!

SUPPANDI TRYING TO CON-NET?

One day, Suppandi's master's internet got cut. So -

Suppandi bought a fishing net from the market.

Imagine that there are rotis, curries, fruit juices, sweets and ice cream on your dining table. What will you do first?

Chocolate

Dessert is last, so, rotis!

No! Before that!

No!

yes, maybe rotis and curries. Then juices!

I don't care, I will have ice cream first.

Friends! you wash your hands first!

Annika Mary-4B

BE THE CHANGE

It was bright new sunny day, John got up excitedly and went to school. It was his first day in his new school. The school bus came to pick him up. He thought of making new friends on the first day itself. But unfortunately when he entered the school he saw another boy being bullied by some elder students. John went near them and told them to stop troubling the boy. They laughed and laughed hearing John. John asked them how they would feel if they were bullied. The boys thought for a while and understood their mistake. Then they finally understood not to bully anyone. They all became best friends.

Shenaya Master -4A

LANA LEARNS WHAT IS TEAMWORK

Once there was a girl named Lana who always failed in running race. Lana's friend, Arul understood her feelings and went to console her.

She asked Lana, "Should I teach you how to run fast?" Lana replied, "Yes please!"

So Arul trained her for the next running race.

A few other kids also joined with Lana and started practicing with her. Arul trained them early in the morning during the winter vacation and they all became very fit and energetic.

At the end Arul was happy watching her team winning the races on the sports day.

Then the team members told everyone that Arul's training led them to success.

Arul was nearby, she heard it and came with a BIG SMILE ON HER FACE.

All the teachers praised them for their teamwork.

**MORAL OF THE STORY IS TEAMWORK
LEADS TO SUCCESS.**

ANICE NESSI SEBIN-4C

A DAY IN SPACE

One winter, I was sleeping in my small camp with my friends. I then heard a loud sound. BOOM!!! A spacecraft landed. I wondered how it landed. It looked so mysterious that I called my friends and hopped into the space craft.

It showed a computer which wrote, "You all should explore the vastness of the multiverse." The spacecraft moved out of earth at a lighting speed. That was amazing since I could gather information for scientists all about space. I could tell whether plant x was real. I was dazzled when we saw a huge pile of omnitrix. We collected them all for some use. Then a robot suddenly dashed to us. He was begging for help.

We agreed and went to him. We saw a huge monster by the name Vilgax destroying the city. Then by mistake I pressed a button in the omnitrix. Soon I became an alien called Heatblast. I fought Vilgax but I was defeated. I became another alien called Waybig but I was defeated again. I called my friends who too became aliens with me and fought. We won with ease .To our surprise the robot opened a massive portal to our way back home. We pressed a button in the omnitrix and we suddenly got to our previous human form .We all were delighted to get the omnitrix for free. It was a magical trip to space. We kept the world ever green using our alien powers and soon became famous.

ASWATH KARTHIKRAJ-5C

The Invisible Man

It was early morning and was a beautiful day. The birds were singing and the flowers were blooming. The kids there were flying their kites. A girl named Nokano Gouri lived with her dad and they had a small soup shop. The soup's name was 'The Gouri Soup'. And this soup was special as it had a secret recipe.

One day she went outside to buy ingredients for the soup, but on the way back the clouds turned black and it was about to rain. When it started raining everyone ran into their houses, but Nokano's dad called out for her as he was worried. Nokano was running but it was raining heavily. She saw a big piece of thin broken metal and held it above her. She was struggling a bit because she had to hold many things.

Someone helped her to hold the things in her hand. She was frightened and she looked to the left and saw an old man. "Thank you for helping me."

Nokano said with great relief.

She saw her cousin walk by,

and asked her "Who are you talking to dear?"

Nokano pointing to the old man, said "This old man standing next to me". Then her cousin looked around her and saw some groceries floating in the air, he couldn't see anyone. He got scared and ran away. Nokano was surprised.

She asked the old man "Who are you and why did he get scared of you?" The man said "I am the invisible man and no one can see me.". Nokano was a brave girl, but was feeling scared inside. She asked the old man, "Then, how can I see you?" The man said that "Only people who have seen death can see me." This time Nokano was

feeling more scared. She was tempted to run away but had more questions to ask. She asked, "And, when did I see death?" The man said "When you were born, your mum died, so she gave her life to you." Nokano was feeling sad and asked him "Oh..." The man said "Your mother was just like you, and she was a brave." Nokano asked "Are you alone?" The man said, "Yes, My mum also died when I was about 5 years... So we are both basically the same." After some time the man disappeared and her things fell on the ground. She was a bit angry as the things got wet and dirty.

When she reached back home she saw her father and told she was back. "Yes I know..... WHERE IN THE WORLD WERE YOU??? I WAS WORRIED" her dad said. Nokano was frozen in the spot and said, "uuuuuh, I was on my way and uh, I met a friend..." Her dad did not believe her as he knew she did not have any friends and knew something fishy was going on but was glad at the same time as she was there.

Days passed and very few customers came to their shop. Nokano and her dad were even poorer than before. After some days, the old man who Nokano saw a few days back, came to them and bought a bowl of soup and gave them 50 yens instead of 2 yens.

Nokano was happy and jumped around. She showed her father and told him about the invisible man and he looked around and saw a floating bowl of soup, he got scared but he also said "Thank you". The old man nodded his head happily and disappeared without asking for the balance.

Nokano and her father upgraded the soup by adding some new ingredients and many people started to like it. One day she saw the old man sitting near a patch of yellow flowers. She

went to the old man and asked him "Who are you? And what is your name?" in a nice way. "My name is Akihito Gouri and I am your great, great, great, great, great, great grandfather.". Nokano was surprised and asked him what he was doing at the yellow patch of flowers. Akihito said, "This is where my mother who died in a war. I put yellow flowers and visit it every day because yellow was her favourite colour. I feel sad when I think of those days as a child... I miss her."

"I still remember the days when my mother cooked up the Gouri soup," he said again. Nokano came up and said, "Don't worry, I lost my mum too. So we are both basically the same. Akihito and Nokano had a good laugh and Nokano ran back to play with her friends after saying goodbye.

BELLA REJI-5C

IF I WERE A SUPERHERO.....

There are different superheroes like flash, daredevil, superman and different superpowers like invisibility, shape shifting, healing, super speed, and super strength. My favourite superhero is Shang-chi. He is the master of kung fu.

But I think my favourite power, is the power of chi. The ability to control chi allows extraordinary abilities, strength, stamina, and reflexes.

If I were a superhero, I would love to have not just the power of chi, but also memory erasure that is the ability to make people forget. If a villain is bad because of a bad experience, I will erase it from his mind. If a villain is bad because of greed or madness, I will erase that very fault.

I would try to erase poverty, imbalance in life and nature. I will not need a suit or a mask. I could have a normal life while saving others.

Imagine me walking around among everyone and saving lives.

By Vivin Mathew Vinod-4B

Staying alone in the house

It is about to be night. The sun was about to disappear and Kate was alone in her house.

"Let me sit in the sofa near the bed said Kate, ". She went to the bedroom

It is quiet dirty let me go to my room and sleep.

The bed is for Kate and her sister. Her sister went out, she will come late.

"Let me go and sleep said Kate,".

Kate removed her slippers and went to sleep. She was sleeping a long time. Suddenly she heard a sound which woke up her. She was so scared. She wore her shoes .she took a knife and ran to see what happened.

It was dark she got even more scared. She heard some noise in the kitchen. She ran to the kitchen. Her sister was seen like a devil in her eyes than she was jumping here and there. The knife fell and her sister got hurt. Her sister was screaming because she got a big hurt. Kate was thinking that the ghost will kill her. Kate was screaming a lot. She ran everywhere to the corridor. She is running out of her house too. She was not able to open the door too. She was trying to open the door till morning and she opened it. She ran out and her parents saw her and scolded at her. They ran to see her big sister because she got hurt and she was still there. Her sister got fainted.

The moral of the story is do not be scared, that is not good. The

end

-by Devisri

My Mother

Mother is an angel of mercy & love. Her platform of action has no limits. Love according to her is serving God by serving her children and family members. A child can see the world only because of her. She is a friend, parent, guide and teacher to her child. She illuminates our home with her presence and smile.

For me, my mother is a symbol of love, honesty, and compassion. My mother is an inspiration for me. I start my day with my mother's smile. She is a woman I admire the most. Her waving hand gives us assurance that she is always there for us no matter what. My mother is the one who spends sleepless nights when I fall sick. She is my best friend and always guides me to do the right things. Her positive attitude and skills have broadened my strength to stay calm during challenging times. I aspire to be her and inculcate all her qualities.

A mother is like Mother nature who always gives us unconditionally without any expectations in return. Mother is not a simple word; in fact, it is the whole universe.

Evelyn Rose Ancop -5A

THROUGH THE JUNGLE

THERE WAS ONCE A MAN NAMED ALEX. HE ENJOYED HIS JOB AS AN EXPLORER. TODAY HE GOT A MISSION TO GO THROUGH THE JUNGLE WITH HIS FRIENDS, ROCKI, REX AND DANIEL TO FIND SOME ARTIFACTS. THERE IS A TALL MOUNTAIN IN THE MIDDLE OF THE JUNGLE WHICH THEY ARE GOING TO CLIMB. LET'S SEE WHAT WILL HAPPEN TO THEM AND WHAT IS GOING ON THERE.

ALEX- WOW! THAT IS A TALL MOUNTAIN THERE. IT WILL TAKE A LONG TIME TO CLIMB UP.

ROCKI- WHAT CAN WE DO TO CLIMB THE MOUNTAIN?

REX- I DON'T KNOW HOW TO CLIMB IT.

DANIEL- OK, BEFORE CLIMBING, WHY DON'T WE GO AROUND THIS VALLEY?

THEY SOON SAW A RIVER DOWN IN THE END OF THE MOUNTAIN. THEY WENT AND DRANK THE WATER THERE.

ALEX-OHH!!! WATER, I WAS LOOKING FOR IT. I THINK THIS A NEW RIVER.

REX- THANKS TO GOD FOR SHOWING US THIS RIVER.

BUT THEY DID NOT KNOW THAT, THIS IS A RIVER HAVING MANY CROCODILES SO THEY ARE IN GREAT DANGER.

ALEX- WHAT IS THAT. I THINK IT IS A CROCODILE.

REX- WHERE IS IT?

ALEX- ON THE OTHER SIDE OF THE RIVER. LOOK THERE ARE HUNDREDS... RUN!!!. WAIT THEY ARE IN THE OTHER SIDE THEN IT IS OK.

DANIEL- OH! THAT MEANS, THIS IS A RIVER WITH CROCODILES.

THEN THEY FOUND OUT THIS PLACE NO ONE EXPLORED AND THIS RIVER IS NEW TO THE OUTSIDE WORLD. SO THEY DECIDED TO NAME IT.

ALEX- LET VOTE FOR THE NAMES BY TELLING NAMES WHICH WE LIKE.

THEY DECIDED TO VOTE FROM THREE NAMES CROCORIVORES RIVER, CROCISO RIVER, CROCODILE RIVER OR CROC RIVER.

ALEX- I LIKE CROCORIVORES RIVER.

REX- I LIKE CROCODILE RIVER

DANIEL- I LIKE CROCORIVORES RIVER.

ALEX- ROCKI, TELL US WHICH ONE YOU LIKE BETTER FOR THE NAME OF THIS RIVER.

ROCKI- I LIKE.....

ALEX- RUN THEY ARE HERE!!!

ROCKI- BUT I DID NOT FINISH WHICH NAME I LIKE BEST FOR THE RIVER.

ALEX- NO TIME.

SO THEY RAN TILL THEY WERE AWAY FROM THE RIVER AND REACHED AN OLDEN CITY WHICH WAS HIDING FOR A LONG TIME. THEY FOUND MANY ARTIFACTS LIKE POTS, OLD BUILDINGS AND TERRACOTTA CRAFT.

THEY WERE VERY HAPPY AND THANKS TO CROCODILES FOR HELPING TO FIND THIS PLACE.

FINALLY, ROCKY SAID, I LIKE CROCOSO RIVER AS THE NAME.

EVERYONE AGREED THE NAME.

An Article On Environment Day

15/6/21

As we know, the World Environment Day is celebrated on June 5th of every year. In that day, people celebrate World Environment Day (WED) in different parts of the world. They do many missions such as planting trees, cleaning up our land and water, using eco-friendly things and many more. But do you know? more than a billion trees are being cut in a year and this can cause global warming. There are many other changes in this Earth. Eg. releasing smoke from factories and vehicles, putting harmful substances and chemicals, overpopulation, burning of fossil fuels etc. These all affects our health and life. So each year United Nations Environmental Programme (UNEP) chooses a particular issue to focus on. We can prevent pollution by planting trees, using less plastic, using the 3 R's, switching the lights off when no use, and much more. So it's our responsibility to keep our environment clean.

Go Green!

WHAT HAPPINESS MEANS TO ME

This morning, when my dad woke me up for school, I jumped on his shoulder and we had a little play before I got ready for school. I can always feel I can touch the top of Burj Khalifa sitting on his shoulder. I am always happy when I am playing with my mom, dad and brother. Making faces at each other and calling each other with funny names make me giggle and joyful.

This is just the beginning of the day. Let me tell you what happiness means to me. Guess what, even little things make me happy. One of them is just staying Dubai. Dubai is such a fun place to live. In my building, I even have friends from different countries. I really like that as I can meet so many people who speak different languages and different food to eat. This tolerance of different people from different places in the world is what makes Dubai super and us, happy.

Another thing that makes me very happy is when my grandparents come to Dubai and stay with us. I am really excited when they do. There are so many games I play with them like Jenga and Qwirkle. It is so funny when my grandma hides a coin and tries to win. This brings out great laughter in the house and I am very happy. The

 little things like these make me joyful. My grandparents tell me stories and also teach me fun paper models which I enjoy a lot.

I am sure you all will agree with me that fireworks in Dubai make us all happy. My family and I are there for all the fireworks. Fireworks light up the sky and that in turn lights up my face with a smile.

A lot of us are sad because of the covid-19 pandemic. We are unable to go out and play in the play areas in the malls or watch movies in the theater. But, let us all respect the nature and pray for the world to become healthy again. Always remember to SMILE!

Opera Omnia'- Middle & Secondary School

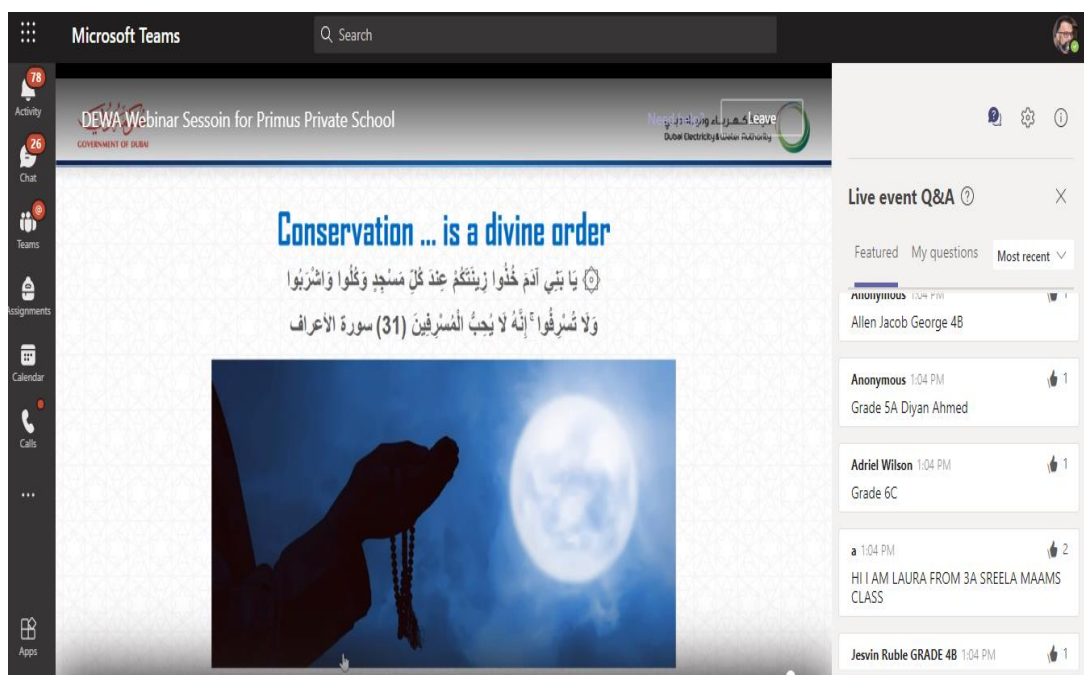

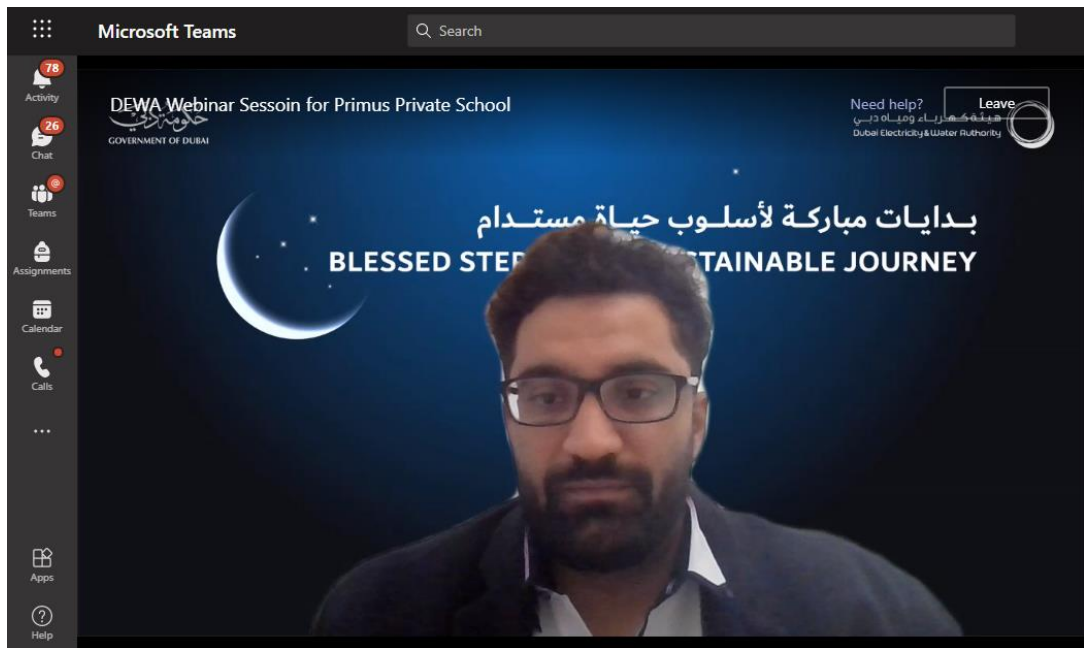

RAMADAN FEST

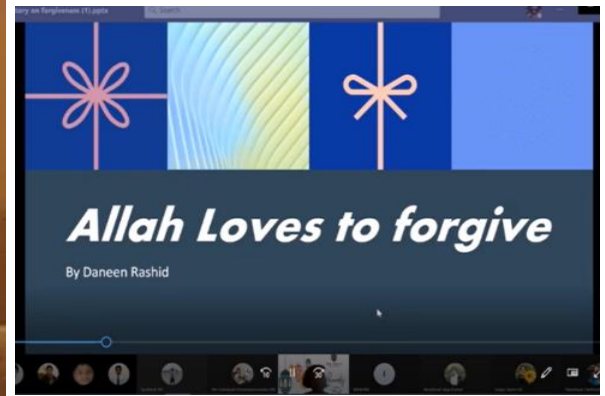

Primus celebrated the Holy Ramadan in all its best ways. Arabic- Islamic department had organised some enlightening secessions for us. Middle and Secondary students celebrated Ramadan through expressing their Ramadan thoughts and by showcasing marvelous presentations on different topics of Ramadan. Every single participant gave some or the other new information on Ramadan. Various competitions were held, students actively participated in Ramadan Quiz, Nasheed and Quran Recitation. Values and principles of the Holy month was shared to fellow classmates by Islamic Education students. The students also attended a webinar on Conservation organized by Dewa.

The Ramadan Cannon

Why is the Iftar Cannon fired?

Some historians believe the custom dates back as far as 10th century Egypt, when one of the Fatimid caliphs ordered a cannon be placed on Cairo's Muqatam Hill so all Muslims would hear the signal to break their fasts. A more popular story is that it began about two centuries ago in the rule of the Mamluk ruler, Khosh Qadam. It was said the Sultan was given a cannon and that his soldiers tested it by firing it one sunset. By coincidence, this happened at the end of the day's fasting in Ramadan. When the people of Cairo heard the boom, they took it as sign they could end their fast and were so thrilled with the idea that they thronged to the palace to congratulate the sultan. Seeing an opportunity to endear her father to the people, his daughter Hajja Fatimah urged him to fire the cannon every day for iftar. He agreed and the tradition of "midfa al iftar" was born, with the local nickname Hajja Fatimah. To this day, a cannon is placed on the plateau of Muqatam near the Citadel to announce iftar.

INVESTITURE CEREMONY

The Investiture Ceremony is conducted by the school every year, to invite and introduce the new student council of the year. The Council consists of Junior and Senior Prefectorial Board, Editorial Board and finally, the Green

Gang. The Ceremony which is set on the Campus was moved to Zoom Call due to the COVID-19 Pandemic. The Ceremony sets off with the Principal's speech to the audience and appreciative and supportive words to the council.

The Junior and Senior Head Boys and Head Girls, with the Assistant Head Boy and Head Girl who are selected by voting are introduced well to the audience, moving on to the Green Gang President, Vice President and Green Gang members. Then finally to the Editorial Board Editor in Chief, Assistant Editor in Chief and Editorial Board Editors. That marks the end of the ceremony. In total, the Ceremony was a great experience and was done perfectly well despite of the Pandemic. It was also well organized.

PRIMUS BAGS TITLES AT EEG!

The 21st Cycle of Inter School Environmental Public Speaking Competition was organised by the Emirates Environmental Group from 21-22 April, 2021. We're proud to announce that our students at Primus had taken part in the competition and have bagged prestigious titles!

There were two teams representing our school, one from the senior and the other from sub-senior category. The senior category was represented by Janaki Sreesha, Nickolyn Nixon, Sahil Kazi, Shruti Gupta and Siyona Shajil from grade 12. The topic given was 'Balancing the Three Pillars of Sustainability in a Post Pandemic World' and the team had very creatively linked the idea of food wastage and the COVID-19 pandemic together to create a beautiful presentation which got us the position of 2nd Runner Up from a total of 50+ schools!

The sub senior category was represented by Ananya Warriar, Devika Santhosh, Ihab Khan, Keerthana Sajeew and Niveditha Binu from grade 10. The topic given was 'Environment and Education: Need for Change' and the team had a very innovative way of presenting this idea in a news debate format. The students enacted out roles of news anchors and celebrated dignitaries to put together a charming presentation which got us the position of 1st Runner Up in the entire sub-senior category!

Primus is indeed proud of these young and creative minds that it harbours and hopes to bag more such titles in the future!

ENVIRONMENT DAY

As sustainability becomes ever more important, Primus is committed to take a whole school approach to integrate and promote the Sustainable Development Goals (SDG) as a key focus of our curriculum and learning. In our effort to make our school culture the catalyst for change, Primus is a signatory for The Global Schools Program. Primus celebrated the World Environment Day across the grades with various events and competitions integrating the concept of SDG. Grades 6-8 celebrated World Environment Day on 06th June 2021.

Students showcased various 3D projects on need for afforestation and ecofriendly sustainable developmental practices prevailing across the universe. Competitions were organised at grade levels to motivate and enlighten the community of the advantages being environmental conscious.

Food Origin

The origins of most food products such as bread, milk, meat, fruit, vegetables, sugar, etc. are in agriculture. They are either produced directly on farms or based on food coming from farms. Farmers grow food, which they harvest, store and transport to markets or to processing plants for preservation and transformation into a variety of food products.

Future Challenges

In recent years, economic and technological achievements have led to a sharp fall in the number of farmers in Europe. Today, three per cent of the population produces most of the food required. In the future, research and development will continue to assist farmers to become even more productive, to seek improvements in the safety and wholesomeness of food, and to achieve all of this with minimum impact on the environment. These are the challenges facing the world of agriculture as the 21st century approaches. Farmers, and the network of scientists, governments and manufacturers which supports them, continually direct their energy and efforts toward developing the best growing and living conditions for crops and animals.

Africa potential

At the same time, Africa, a solar continent has the great potential to invest directly in renewable energies without having to make a deviation via conventional, polluting technologies. The construction and expansion of renewable energies is a direct investment in the future of the people: wind, sun, water, biomass and geothermal energy will be invested in decentralized solutions sustainably and cost-effectively. This creates jobs and local value through income and an effective supply of rural areas. By Aarnav Talreja

Why is SDG-6 important ?

By Abdullah

- Sustainable management of water resources and access to safe water and sanitation are essential for unlocking economic growth and productivity, and provide significant leverage for existing investments in health and education.

What do you mean by waste water treatment?

- Wastewater treatment is a process used to remove contaminants from wastewater or sewage and convert it into an effluent that can be returned to the water cycle.

What are the three main stages of wwtp's (waste water treatment plants)?

primary treatment
secondary treatment
tertiary treatment

The basic function of wastewater treatment is to speed up the natural processes by which water is purified. There are three main stages of the wastewater treatment process, aptly known as primary, secondary and tertiary water treatment.

What is effluent?

Effluent just means flowing of water to natural bodies of water. We use this term mainly for describing sewage water flowing out.

Now lets watch a video on Waste Water Treatment Plants.

How do wastewater treatment plants work?

Aeration tank

Digester

Secondary Treatment Process

Watch on YouTube

6 CLEAN WATER AND SANITATION

Water pollution (or aquatic pollution) is the contamination of water bodies, usually as a result of human activities. Water bodies include for example lakes, rivers, oceans, aquifers and groundwater. Water pollution results when contaminants are introduced into the natural environment. For example, releasing inadequately treated wastewater into natural water bodies can lead to degradation of aquatic ecosystems. In turn, this can lead to public health problems for people living downstream. They may use the same polluted river water for drinking or bathing or irrigation. Water pollution is the leading worldwide cause of death and disease, e.g. due to water-borne diseases.^[1] The causes of water pollution include a wide range of chemicals and pathogens as well as physical parameters. Contaminants may include organic and inorganic substances. Elevated temperatures can also lead to polluted water. A common cause of thermal pollution is the use of water as a coolant by power plants and industrial manufacturers. Elevated water temperatures decrease oxygen levels, which can kill fish and alter food chain composition, reduce species biodiversity, and foster invasion by new thermophilic species.

DIFFERENT TYPES OF POLLUTION ARE

Surface water pollution

Surface water pollution includes pollution of rivers, lakes and oceans. A subset of surface water pollution is marine pollution. One common path of entry by contaminants to the sea are rivers. An example is directly discharging sewage and industrial waste into the ocean. Pollution such as this occurs particularly in developing nations.

Groundwater pollution

Interactions between groundwater and surface water are complex

SUSTAINABLE DEVELOPMENT GOALS ACTIVITIES

As environment day was coming, we here at Primus showed our love towards the environment and that we too care for the earth. The school aimed to work towards achieving sustainable development goals through various fun and creative activities and initiatives for students' class 9 till class 12. From 31st may till 3rd June. Four days where students showed their amazing creativity and love for the earth and their awareness for current environmental issues. Through colourful posters depicting carbon footprints on day one.

To raising awareness and being fashionable by designing T-shirts on day two. Proceeding to day three, and students made wonderful movies and interviews. And for the end, a fiery debate on if climate change disaster to occur or a technological challenge we can overcome. That marked the end of the SDG activities at Primus.

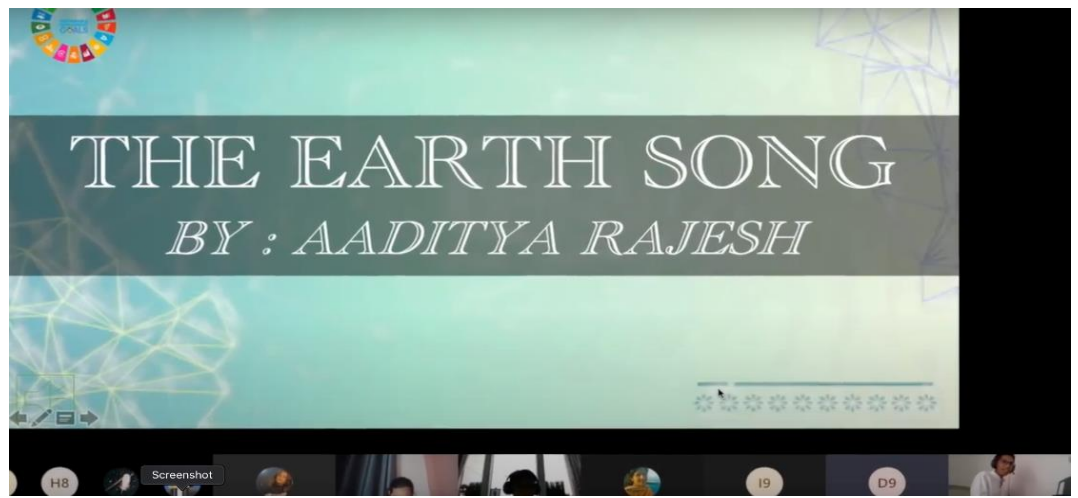

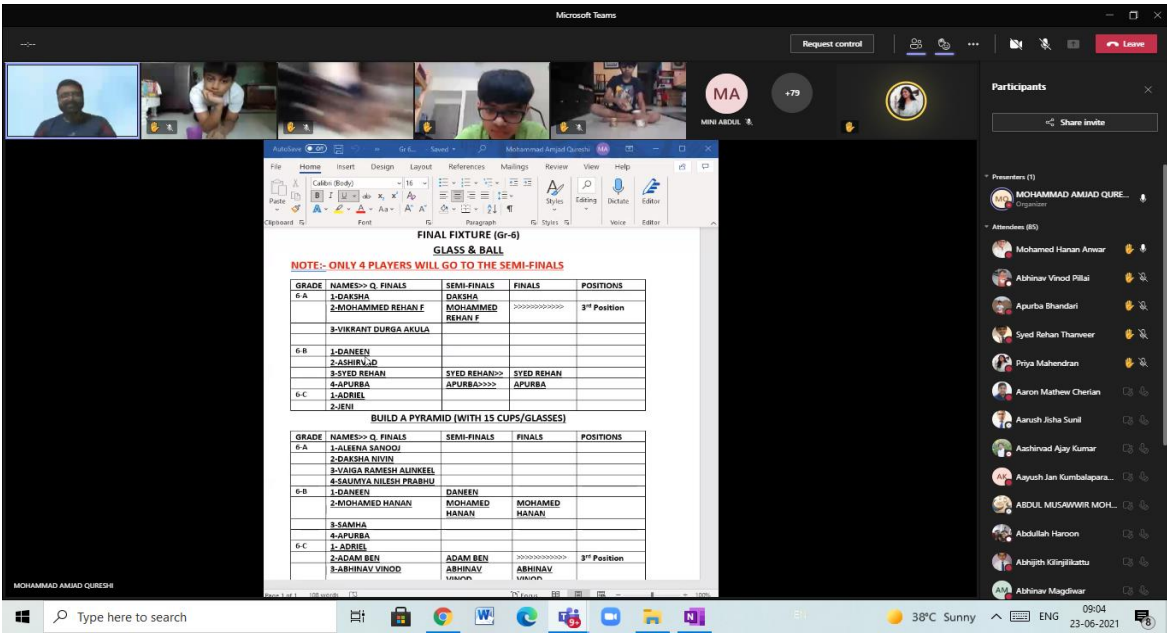

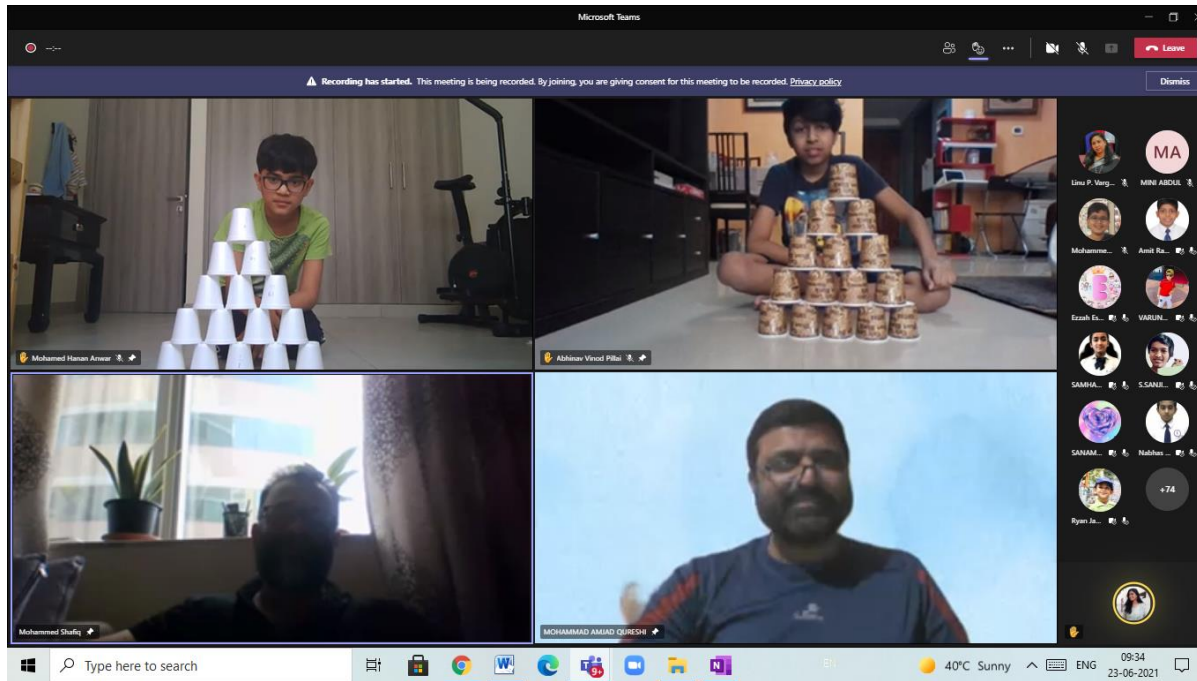

The collage consists of 12 individual posters or drawings, each with a unique theme related to carbon footprints and environmental awareness. The top row features a large title poster, a poster about caring for nature, a poster about tracking carbon footprints, a poster about reducing carbon footprints, and a poster about watching your step. The middle row includes a poster about carbon footprints, a poster about carbon footprints, a poster about carbon footprints, a poster about carbon footprints, and a poster about carbon footprints. The bottom row features a poster about carbon footprints, a poster about carbon footprints, a poster about carbon footprints, a poster about carbon footprints, and a poster about carbon footprints.

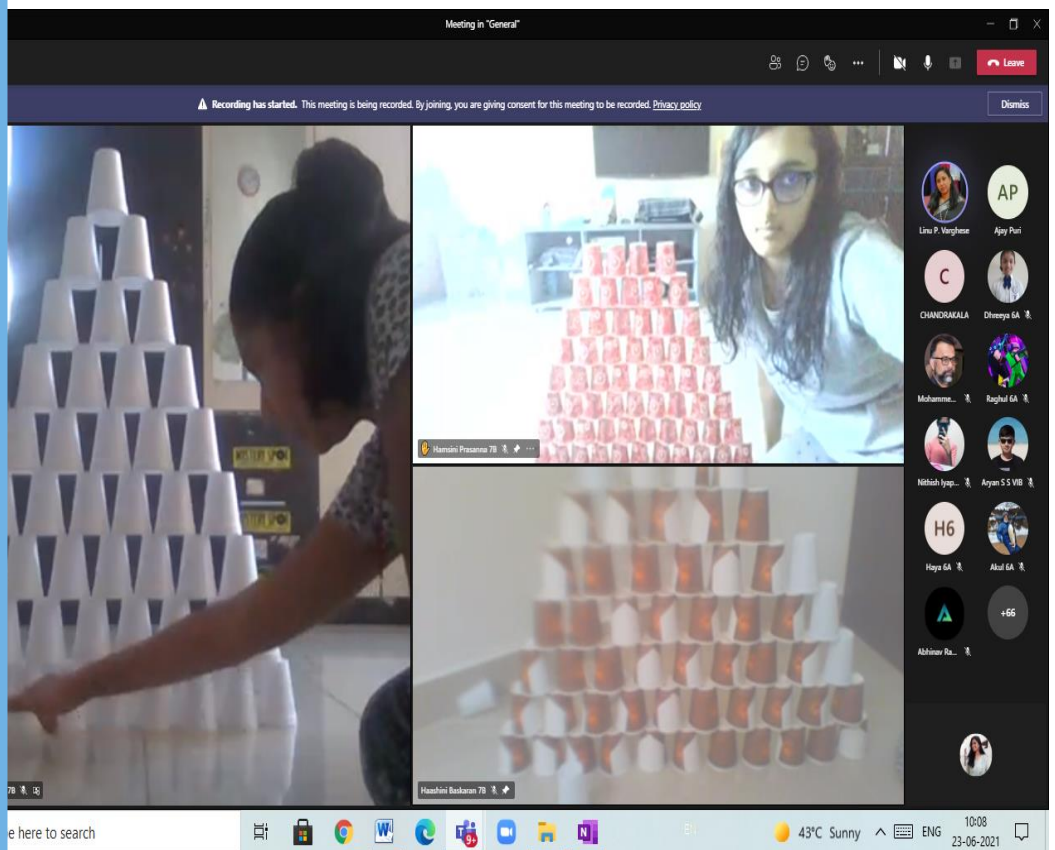

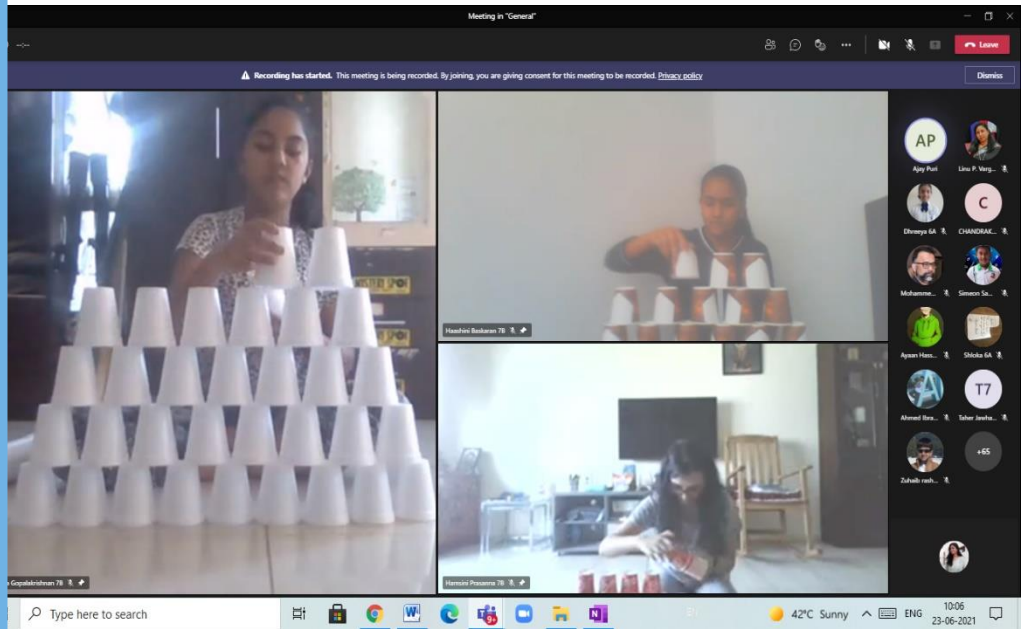

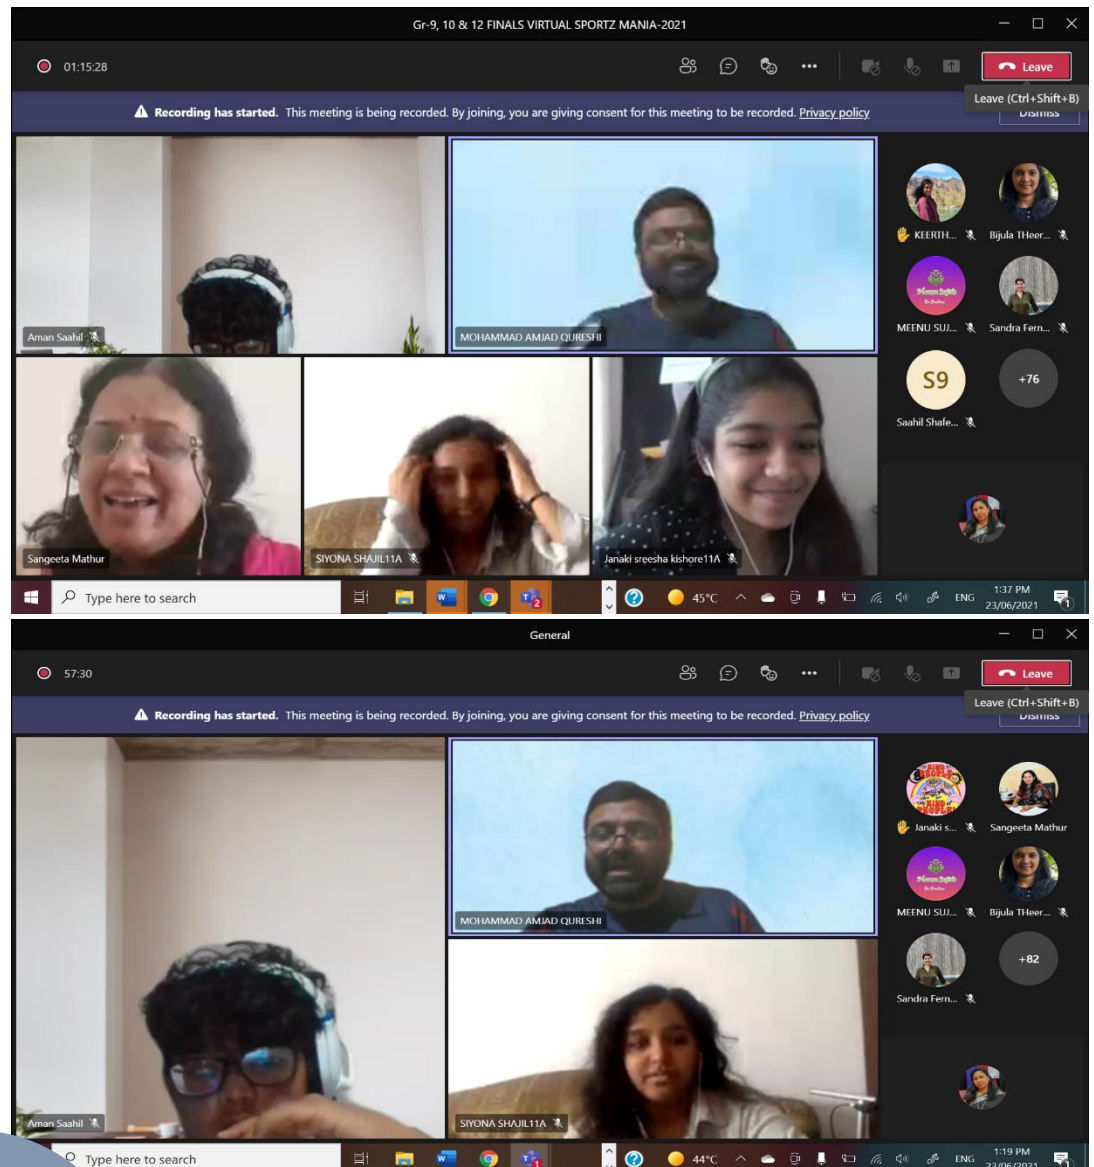

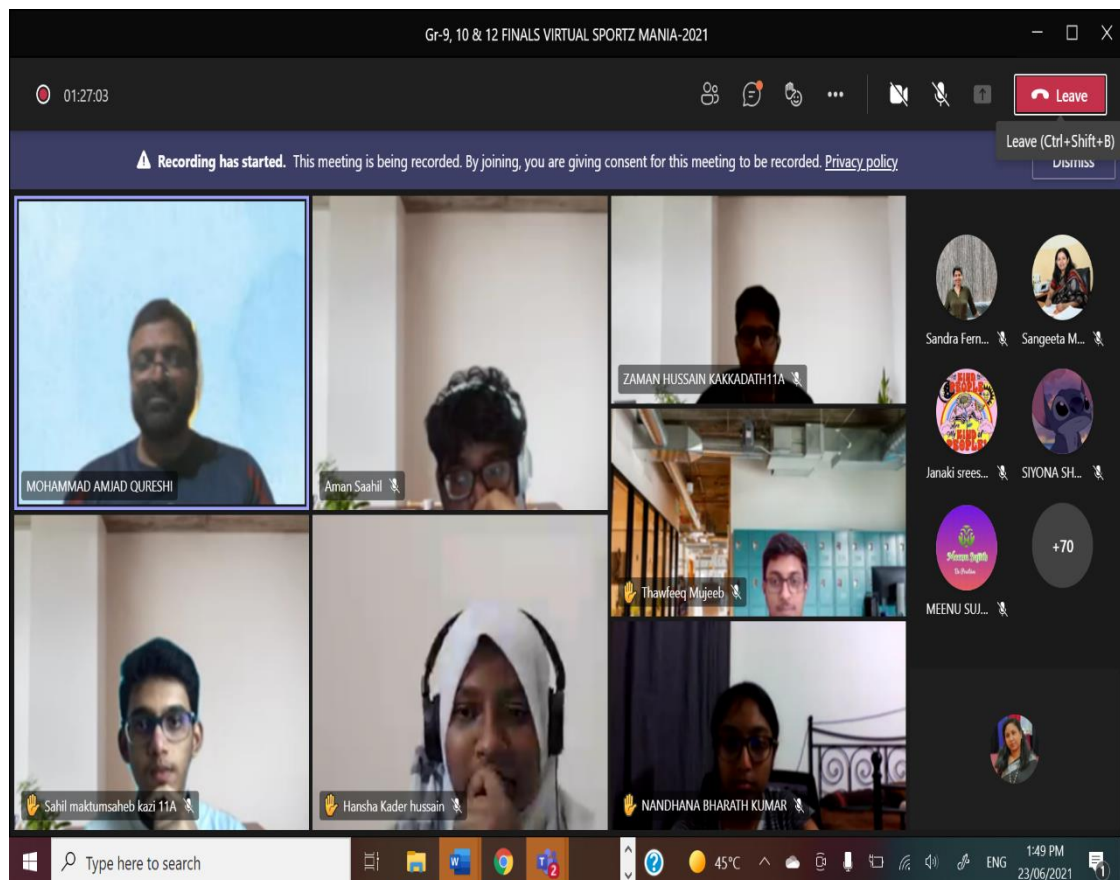

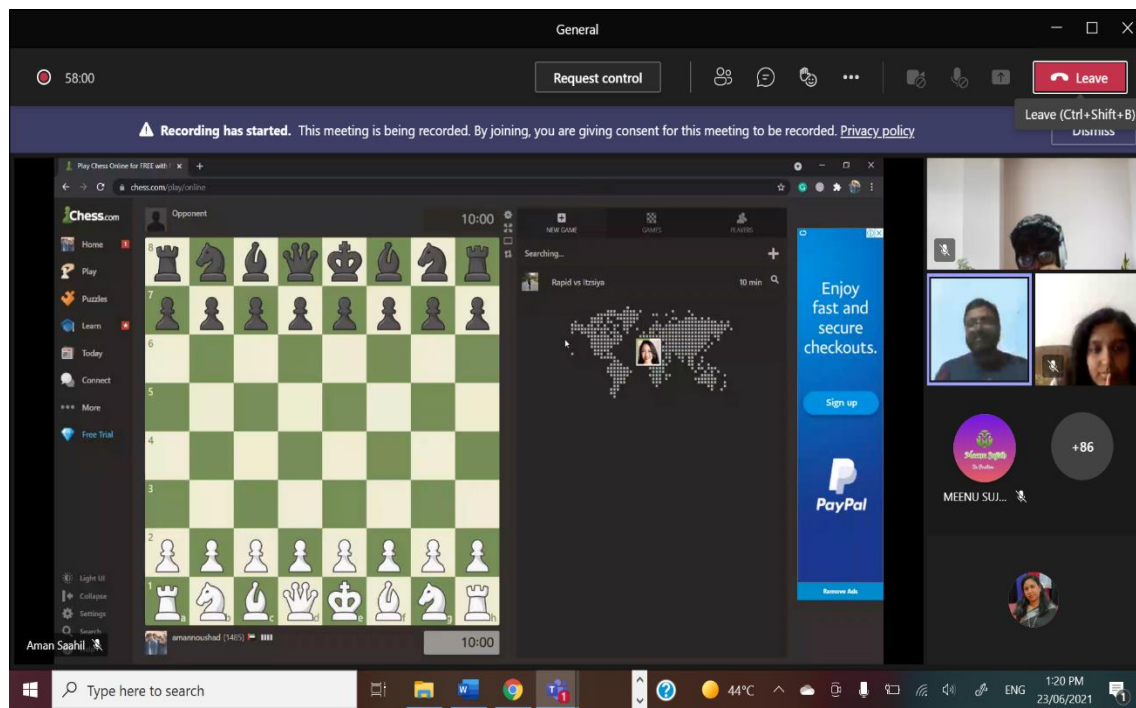

VIRTUAL SPORTS WEEK

The five S's of Sports namely -Stamina, Speed, Strength, Skill and Spirit play an important role in holistic development of students. To keep the students physically and mentally fit during this prolonged period of confinement, P.E, Aerobics, Yoga and Dance periods are incorporated in the regular Timetable. To add zest and fun the P.E. department had organized virtual sports week from 20th to 24th June 2021. It was an opportunity for our students to take on series physical activity challenges and compete for fun and victory ! It was certainly a blissful week for all the students of grades 9 to 12 where they could showcase their set of talents and abilities in various sports activities.

YOGA DAY AT PRIMUS

Yoga is the only key to be fit and it's essential to do it daily to keep your mind stress free!

Islamic Department activities

This Ramdhan we conducted Qur'an & Islamic songs competition amongst Islamic student under the banner of Ramdhan Fest Competition which was held on the auspicious occasion of the holy month of Ramdhan at Primus Private School, the competition was held Under the guardianship of our beloved principal Mrs Arundhati Roy. A circular has been sent to the parents through mail letting them know the criteria for the competition so that they can prepare their ward.

By the grace of ALLAH almighty almost all students have participated in the competition in different activities.

Each participant added value by displaying their works. Thanks to them & their parents.

Though for the sake of competition we have to select some of the students, but the fact is that each participant is the winner for coming forward and taking step towards achieving the target.

Here is the list of the position holders in Qur'an & Islamic song competition.

Qur'an recitation First position

Ezza Raamseed
Aaliya Shaikh
Naira Hanan Sameekh
Mohamed Hanan Anwar
Aleena Sanooj

Second Position

Anabia Waseen
Mysha Nasir Dhar
Mohammad Hsnain Mohammed
Wseem Druwala
Fawzul Hidayah
Muhammed Nashwan Zeeshan
Zuhaib Rashid
Ashaz Azfer Khan

Third Position

Ayesha Haniya
Shireen Khan
Sara Eman
Sumayya Mohammad
Abdullah Randikpurwala
Ezzah Eshal
Ahmed Ibrahim
Afsheen Rabia
Marwa Mohammad Suhail

Batul Aliasgar Hawelwala

Islamic song First position

Mysha Nasir Dhar
Hasnain Mohammad
Muhammad Ibrahim Obaid
Ashaz Azfer
Shuraafa Bareerah Rahman
Md Ziyad

Second position

Diyan Ahmed Basheer
Ilham Ali
Abdul Musawwir Mohammad
Ayaan Muhammad

Third Position

Sumayya Mohammad
Azin Mohammed
Delisha & Yasin

Ramdahn awareness and the UAE culture and its value has been introduced to the senior class students.

Students got opportunity to learn about Islam and its different types of worship. Students also shared their own experience how do they feel when Ramdan comes.

Overall, the Islamic students gave their best to be best participant. in this pandemic it was a challenge to conduct such activities but because of the sincere collective effort we succeed to give chance to explore their Islamic talent.

On behalf Islamic department we would like to thank **Jeni Shinu Thomas & Ryan Jason** for their huge contribution in the different activities of Islamic department.

FATHER'S DAY

Father's day is a holiday honoring fatherhood and the paternal bond of the child and the father. This year, the students have also celebrated the joyous occasion by holding special assemblies and the teacher had assigned padlet walls to the students. This time, the respective teachers had sent the padlet walls in their class groups to show the parents the love children couldn't show in front of them. This joyous event made the paternal bond stronger and the students couldn't be happier than showing their true love to them.

My Father, the pillar of strength of my family!

My message for my father.

Hamdan

Happy Father's Day Papa <3
I can't thank you enough for all that you have done for me/us. You've helped me become who I am today. I look up to you so much that I try everyday to be even close to as great as you are. Thank you for all your sacrifices and love <3.

Alifiya

Happy Fathers Day Dad
Really Grateful To have a father
Like You who Fulfills All Our
Need And Who Care For Us
Love You

Maanas Ajith

Happy Father's Day Aacha

Thank you for making my life wonderful.

Reagan

Happy Father's day, thank you so much for being there for me when needed. Thank you for understanding me. Hope you have a lovely day ahead. Can't wait to take me to the birthday party. :)
P.S: Can we use the baskin Robbins coupons fast.

Lysandria

You are such an incredible father, a caring friend, and someone I am very thankful to have in my life. Thanks for everything . Happy Father's day!!

Shyam

Happy fathers day, you have gotten me through tough times and this day is not enough to thank you for being a great father

Devika

Happy happy fathers day acha... love you loads <3
i really don't know what to write as a message...
Ofc I know that you know that I love you more than Nandhu.. so yeah... <3333

Either ways... as part of fathers day celebration, lets plan our next vacation (even if the Corona never ends)

Moiz

Happy fathers day

Mazin

Happy Fathers day u are the best dad ever.

Arun

Jus letting you know that I'm always grateful for, and satisfied with, whatever you've done for me, and given me, till date.
Happy Father's Day!
Lov U, for Being the Father U Are & Always Have Been :D!

Sanaeca

Happy Father's Day <3
Thank you for being such an amazing father to me. You always know how to make us all laugh and are always here for us 24/7. Thank you for all your sacrifices and love <3.
Love,
Your favourite daughter <3

Mahi

Happy Father's Day!! Thank you pops for keeping me safe and happy till date. After my school and college, when I get a job I know how much you are going to support me. Thank you for being there for me during my sad, happy moments. Always stay happy and healthy pops. I love you so much <3

Niveditha

Happy Fathers Day!! You have always supported me in difficult times. You have never said "no" to whatever I've asked you for, be it small or big. You've always done great things for me and Nanditha. Love you Acha!! You are the best. I only wanted to say a huge huge "THANK YOU", which is the best prayer. You are an amazing personality who always wanted me to have a successful life in future. Love you Daddy.

Pratheek

Happy Father's Day acha.....My father, I cannot say he is nice because he is the most amazing father I always love him with all my heart he is the super dad of my life and there is literally nothing that can change that

Sanal

Happy Fathers Day, Thank you for everything I have got in this Life. Lots of Love.

Ihab

Happy Fathers Day, I know I've already wished you, but here's another daily reminder of how much you mean to me and inspire me. If you do read this, lets go out for ice cream ^^

Ananya

Happy Father's Dayy Achaa , I'm still waiting for my electric guitar
Side note: I know you love me more than Anwi

Vivek Philip

Happy Fathers Day . Hope you have a great day ahead

Keerthana

I just want you to know I secretly love your songs and I'm your biggest fan. And thank you for being my for my biryani partner. And I hope someday you'll save me from amma. So happy fathers dayy achaa, love you <3

Megha

Happy Fathers Day acha!!!!Hope you have an amazing day ahead. Love u lots!!

Naren

Happy Fathers day dad.

Alefiya

Happy Fathers Day.....I'm really grateful for having such great Dad. Thank you for everything u did for me

Avanthika

Today being Fathers day, I just want to thank you Acha for everything you have done for me and Sai. Though we fight every single day I clearly know you love us the most. Only because of you and Amma I have reached heights in Dance. Thanks for always standing by my side when no one did. You are working day and night only for me and Sai and we are really grateful for that. I never say this often but, I love you the most my Superman!

Jayashrinidhi

HAPPY FATHER'S DAY!!!!!! 🖤👉

Manan

Happy father's day

Jeanne

Happy Fathers Day, thank you for raising me up and making me the person I am today. Always waiting for you to come back to Dubai so we can go out as a family :]

Arya

Happy fathers day. Thank you for the constant constructive criticism that im often irritated by but i really do appreciate it. now lets go for a long drive and blast some queen. hugs and kisses, the younger one

Shlok

Happy Fathers Day. Hope you have amazing and wonderful day ahead. Thank you for always being there and supporting me and shaurya throughout these years and understanding how we feel through difficult times. There are no words to describe how amazing your personality and patience is. Once again, Happy Fathers Day and I love you so much!

Benjamin

Happy Fathers Day Dadda. Thank you for all your love, support and enjoying all our play fights. Love you so much and God Bless you abundantly.

Abbas

Happy fathers day! Love u

Krishna

Happy Fathers Day , lets buy mcdonalds and momo as a nice celebration

Saahil

Hey, All I wanted to tell you is that papa thank you so much for all what you have done for me, all that you have provided for me. This is just a short message but there's obviously much more at home. So, at final, Happy Father's Day and that's not yet. Tomorrow is ur b'day and I have a lot of surprises waiting for u. Thanks for all what you have done..

STUDENTS CORNER

DEAR, BETTY.

Oh Betty!

Her smile so easy.

*She's pretty when she smiles;
that a heart melts away.*

Oh Betty!

What a beauty.

*She's strong when she smiles;
so watch what you say.*

Oh Betty!

Still so pretty

She won't show;

But in her head, it'll be a song on replay.

Oh Betty!

Maybe its not so easy.

*Simply smiling through it all,
Just going with the flow.*

Poor Betty!

She smiled through it all;

We never really knew ,

what she was truly going through.

Oh Betty!

Strong Betty!

"Only if I knew", you'd say--

And if you knew, what would u say?

Did you ever even try--

To ever atleast make her day?!

BACK AT SCHOOL

GARDEN

AFTER FEW DAYS

There was a woman who swallowed a fly

There was a woman who swallowed a fly
 And when she realized she started to cry
 'oh what will I do? 'oh what will I do?
 'I think I'm going to get a flu!
 And then she ran to her doctor
 And the news was what shocked her
 The doctor said that it was a dream,
 So the woman woke up in a scream

-Samha Firoz 6b-

Food from farm to folk

By- Ameen, Ryan and Abhinav vinod

Food Origin

The origins of most food products such as bread, milk, meat, fruit, vegetables, sugar, etc. are in agriculture. They are either produced directly on farms or based on food coming from farms. Farmers grow food, which they harvest, store and transport to markets or to processing plants for preservation and transformation into a variety of food products.

Ancient times

man's food came from the wild. About ten thousand years ago, he began to select and promote specific plants and animals for domestic cultivation. This was the beginning of farming. Since then, farming has undergone dramatic changes. In this century alone, new technologies and methods have been developed which have greatly increased the variety of agricultural inputs available to farmers and also enhanced the productivity of farming. As a result, today's rapidly growing world population is being fed by a constantly declining population of farmers.

What is farming

Farming entails the use of natural resources, land and water to produce food for human and animal consumption. This basic concept of farming has remained a constant ever since man started to select and grow plants and to raise animals for his personal use, to exchange his farm products for other goods and to sell them for money.

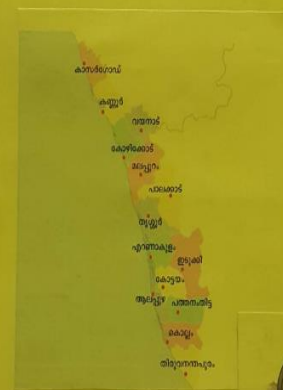

മുഴുതാല ജലസംരക്ഷണം

ജിഗൻ മോഹൻ

7A

ജന്മത്തിൽ ഏറ്റവും കൂടുതൽ മുഴുതാല സംസ്ഥാനങ്ങളിൽ ഒന്നാണ് കേരളം എന്നാൽ ശുദ്ധജലക്ഷാമം നേരിടുന്ന ഒരു സംസ്ഥാനമാണ് കേരളം. ജലക്ഷാമം പരിഹരിക്കാനുള്ള ഏക മാർഗ്ഗമാണ് ജല സംരക്ഷിക്കുക എന്നത്.

മൃഗങ്ങൾക്ക് ധാരാളം വെള്ളം ഒരുമി
പോകുന്നുണ്ട്. അതിനെ ഒരു പ്രത്യേക
സംഭരണിയിൽ ശേഖരിച്ച് ഉപയോ-
ഗിക്കുന്ന ഒരു രീതിയാണ് മൃഗവെള്ള-
സംഭരണം. മൃഗവെള്ളം പാഴായി
പോകാതെ ശേഖരിക്കുന്നതിനുപേടി
ഒരുപാട് മാർഗ്ഗങ്ങൾ ഉണ്ട്. ഏറ്റവും
ഏകദേശമുള്ളതും, ചിലവ് കുറഞ്ഞതും
തുമായ ഒരു രീതിയാണ് നമ്മുടെ
പീടികളിൽ മൃഗവെള്ളം ടാങ്കുകളിൽ
ശേഖരിക്കുക എന്നത്. ഈ വെള്ളം
നമ്മുടെ കൃഷി ആവശ്യങ്ങൾക്കും,
തൂണികൾ അലക്കാനും, പാത്രം
കഴുകാനും ഒക്കെ ഉപയോഗിക്കാം.
മറ്റൊരു രീതിയാണ് ഒരു കുഴിയിൽ
മൃഗവെള്ളം ശേഖരിക്കുക എന്നത്. അതിനെ
മഴക്കുഴിയിൽ എന്നാണ് പറയുന്നത്.

നമ്മൾ മൃഗവെള്ളം പാഴായിക്കളയരുത്
ഇങ്ങനെയൊക്കെ സംഭരിക്കിച്ച്
ജലക്ഷാമത്തിൽ നിന്ന് ഒരു പരിധി
വരെ രക്ഷപെടാം.

CHRISTLIN ANN JACOB
RR

There I saw a beautiful tree
between trees ,
filled with buzzing bees.
The berries looked so fruity.
with all the effects of beauty.

With beautiful flowers which
dance,
I saw it all in a glance
I have never felt soo good
between some wood!

I am sure there are more
carbon
than the count of garden
An there are more space for
our structures,
but less for other creatures.

I love you a lot, nature.
But, if u could nature,
Make us a little mature,
to make yourself secure.

Thank
you

The Escapee

It was the 27th of August 1997. It was a wonderful day. The sun shone brightly. There was peace in all four directions. Then, to break the silence came the sound of gunshots. It was the police shooting at a prisoner. This prisoner's name was Morgan. Morgan was imprisoned about a month ago for a crime he had not committed. The court did not believe him and he was sentenced to five years in jail. Now his only hope was to escape. Nineteen days ago he had prepared an escape plan and decided to carry it out at this day. This is his escape plan.

Morgan had bribed a police officer into giving him a mobile phone, then had called his friend and told him to bring a shovel with him to the prison the next day.

The friend then arrived at the prison the next day with a backpack. When the officers were not watching, he opened his bag and took out a small spade. He gave the spade to Morgan and left. After that, every night Morgan would dig a tunnel.

The night before his escape, he had completed digging the tunnel and decided he would escape at sunrise. At dawn he walked through the tunnel. Unfortunately for him, an officer noticed that he was missing from bed and immediately informed the other police officers.

When Morgan reached the end of the tunnel, he could hear the thuds of feet. He made a run for it. The officers quickly realized what happened and chased Morgan, trying to shoot him. But Morgan being faster outran them and hid in the bushes. The officers passed by him.

Morgan couldn't believe it. He had escaped prison. But now, he would have to live like a criminal, staying away from the police.

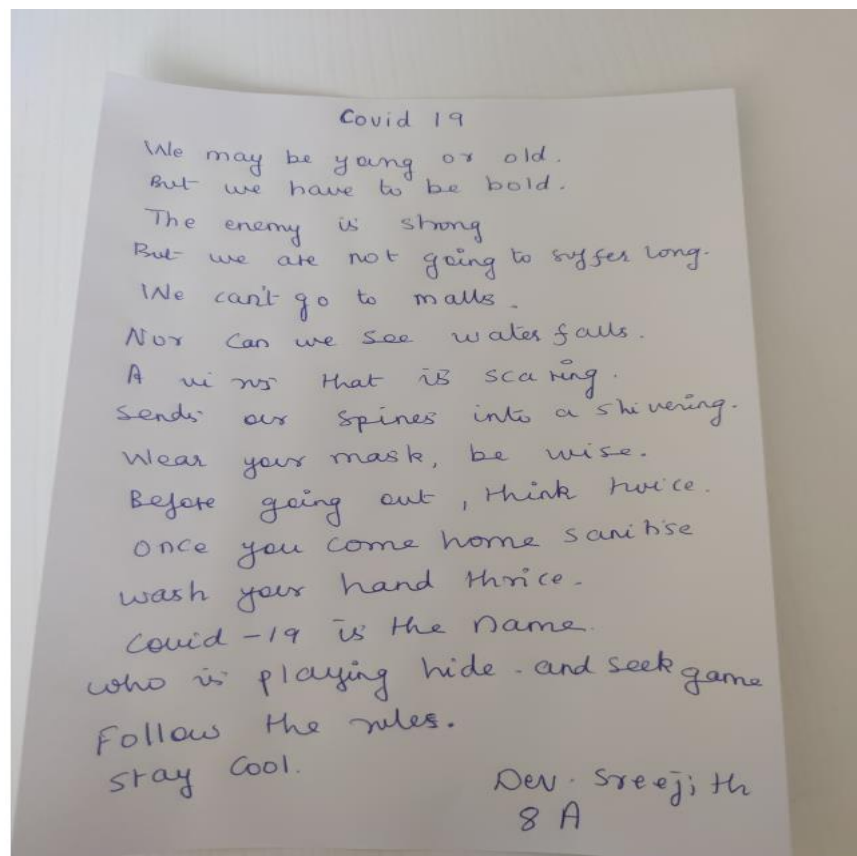

Arshit Sharma 8B

Short Story on the PLANET!

The earth is now all contaminated as we can all realize by just looking around. The earth is now grey shaded, although it doesn't look like that. The grey shade means that it has been more contaminated since the last few 100 years.

There was once a Girl named Shifa. She was born in the year 2042. She was wondering around her city named Flying Tan. Once she saw a green flower. She plucked it and went around the whole globe searching for another one. But not even the root of a green flower was found. In fact, she could not find a single flower. In the year 2042, new spaceships had been found. So, it took only 3 days for them to go around the globe. As she could not find a flower, she went to another planet. She grew a plant there. But it took 3 years for one plant to grow big. So what we should understand is that this is a warning to preserve plants. Due to afforestation we may face the situation of growing plants on moon.

Project - "Ethnomathematics"

THE RELATIONSHIP BETWEEN MATHEMATICS EDUCATION AND CULTURE

- by *Shubham Chauhan*
Class 6 - C

The Map

1. What is culture
2. How are math and culture related
3. How is math embedded in culture
4. How is culture embedded in math
5. Examples

What is culture?

- *Culture is a system of beliefs, values, and assumptions about life that guide behavior and are shared by a group of people.*
- *It includes customs, language, and material artifacts.*
- *These are transmitted from generation to generation, rarely with explicit instructions.*

Mathematics Embedded in culture

- *Ethnomathematics*
 - *Cultural elements based on mathematical constructs*
 - *Walpiri Kin System*
 - *Symmetry in quilt construction*
 - *Mathematical constructs imposed on cultural elements*
 - *Pythagorean Theorem in button construction*

Culture Embedded in Math

- *Mathematical Systems*
 - *All human cultures develop mathematics*
 - *All mathematical systems contain mathematical universal truths*
 - *Mathematical systems vary based on*
 - *The set of universal truths included*
 - *The representation of the mathematical ideas*
 - *The values and beliefs associated with the development, application, and learning of mathematics*

Symbols

- *Mathematics is a language that has its own symbols, syntax, grammar, and representations.*
- *A symbol is an object that represents a visual image, an idea, a belief, or an action.*
- *Symbols are cultural representations.*

Example – 1 | The Quilt

- Quilting is recognized as a cultural and social activity.
- Different cultures create quilts for a variety of reasons.
- The Teacher can teach various mathematical concepts such as:
 - area, perimeter, fractions, estimation, shapes, measuring, proportions, symmetry and transformations (translations, reflection, rotation).

Exmaple – 1 | The Quilt

- The pattern in Figure 1 is entitled *Bowtie*
- The pattern in Figure 2 is entitled *Shoofly*

Example– 2 | The pysanka

- A symbol of Ukrainian culture is the *pysanka* the traditional Ukrainian egg.
- All the colors and designs of the *pysanka* express a strong attachment to the land and natural elements.
- Like Red means joy and hope and the wheat represents the hope of a fruitful harvest.
- It is a giant jigsaw puzzle containing 524 three-pointed star patterns and 2 208 equilateral triangles.

My Queen Earth

My earth, our own Earth,

Let's not kill her Mirth,

Together we'll work, so there's no dearth,

For a billion new births.

We should show love and care,

Or lest we lay her bare,

For bees, bats, tiger and mare,

Snails, sloths, leeches and the lion in its lair.

We ought to protect the Earth as a queen,

And treat her well and not be mean,

Stay off the screen,

Go out to the green,

To see the sky blue,

Together as crew,

For if only we knew,

Our Earth likes to be happy and new.

(BE NICE TO THE EARTH AND SHOW LOVE) DONE BY ARUSHI (GB)

Tejasi-10A

Poem

The land is in a constant state of birth,
Giving life to all who live on Earth.

Our carelessness and fears
Have taken a toll over the years.

Her land is parched and scorched
As man continues to light the torch

To fix all of this we all should come together

So that we can live a life of peace.

Peace in Green Hues

*Peace! She's nowhere to be seen!
Screams diurnal on the street,
Scared and Compelled to
retreat,
Struck in the middle of emotions
and threats,
She's runaway!
Sitting, on a lather of ceaseless
debt.*

*Searching for peace between the
rags,
Tattered hearts, hunger, and
fags,
Away from the cloud of
toxicity,
Hiding in an alleyway of the
city;
There she is, by the green light!*

*Oh, I've found her at last!
Thud-Thud, my heart sank with
despair,
For there's no road to choose,
It's all the same, all to beware—*

*Peace, hold on a little longer!
The slight of the green hue,*

*Give peace in the torn shoe,
Aspiring to free the fags,
From the children in rags.*

*Oh, how fragile, how neat,
Peace my, dear!*

*I'll fight a war for you,
I'll hold you in my heart,
let you make me stronger,
So, don't you ever runaway,
I'll cherish you now forever.*

By Shrujan

Are true to you?

With the passing time,
Shifting seasons,
I've come to realize, Everytime--
No matter how weird
No matter how awkward
No matter how unreasoned
There's always beauty in being authentic.

A beauty some fail to see
A beauty hidden behind poetic -- insecurities
A beauty felt only by the free
But then again--
Are we really free?
If we aren't who we want to be?!
If we can't be --
when we're told not to be--
-Courage seems so foreign.

~jana writes

HOPE

When your life is going
Keep confidence in yourself, and

When your life is going

Go to the person whom you are

When your life is going
Find the friend that makes you

When your life is going
Be strong and find a way to
If you hope, there wouldn't be

If you hope, there wouldn't be
Hope is a word that encourages
Hope keeps us to never give up.

From gr 8A

(ख) बालिका शिक्षा आज की आवश्यकता

- सर्वसमान
- लिंग के आधार पर अंतर गलत
- उज्ज्वल भविष्य

शिक्षा मनुष्य के जीवन का एक सबसे महत्वपूर्ण हिस्सा है। चाहे वह लड़का हो या लड़की, शिक्षा दोनों के लिए ही अनिवार्य है। शिक्षा व्यक्ति के जीवन को बेहतर बनाता है। शिक्षा के कारण ही मानक का कल्याण हुआ है। आज वह नई-नई चीजें सीख पाया है और हर दिशा में उन्नति कर पाया है। इसलिए शिक्षा पर सबका सममान अधिकार होना चाहिए। कोई भी समाज या देश उन्नति नहीं कर सकता यदि वहाँ की महिलाएँ शिक्षित नहीं हों। इसलिए लड़कियों की शिक्षा को प्रोत्साहित किया जाना चाहिए। लड़का और लड़की सिक्के के दो पहलू हैं और इसलिए दोनों को शिक्षा पाने का अधिकार होना चाहिए। एक शिक्षित औरत अपने बच्चों को अच्छे से शिक्षित कर सकती है और अपने अधिकारों के लिए भी लड़ सकती है। यदि महिलाओं की शिक्षा प्रदान न हुई, तो देश के आधे लोग अनपढ़ ही रह जाएंगे। इसलिए हमें पूरी कोशिश करनी चाहिए कि लड़का और लड़की दोनों को शिक्षा के क्षेत्र में बराबर का मौका मिले और लड़कियों को भी हर क्षेत्र में आगे बढ़ने दिया जाए।
लड़की को प्रोत्साहित
देश को अभी बढ़ाओ

SDG Case Study

Question: What is recycling and reusing of water technologies? Water reuse reclaims water from a variety of sources then treats and reuses it for beneficial purposes such as agriculture and irrigation, potable water supplies, groundwater refreshment, industrial processes, and environmental restoration. Reuse for non-drinkable applications has long been accepted and is a successful means to maintain freshwater supplies. But in some rules, it isn't enough. The need to multiply water supplies with reuse of used water for drinkable water applications is growing and regulations are being developed. Existing technology can treat and reuse water safely. Little by little, it is becoming more accepted by the public. The regulations concerning reusing water are strict and vary from one country to another. The applications may include:

- + Cooling of facilities;
- + Water for boilers;
- + Water for industrial processing;
- + Agricultural irrigation;
- + Watering of green spaces and golf courses
- + Storing and reusing groundwater, and salt intrusion barriers in
- + Public fountains and street cleaning

World Environment DAY

World Environment Day

World Environment Day is celebrated every year on 5th June to encourage global awareness for the protection of the environment. It is the United Nation's flagship program to deal with environmental issues like global warming, environmental pollution, marine pollution, etc.

The environment is the real world that has the living as well as non-living types of surroundings on the earth. The environment has a complete cycle to maintain the proper balance on the earth. A healthy environment supports in growing and nurturing the living and nonliving things on the earth.

The three R's of 2021

'Reimagine, Recreate, Restore,' as this year marks the beginning of the United Nations Decade on Ecosystem Restoration.

animals as well. The carbon dioxide that our industries are emitting is causing global warming by the greenhouse effect.

There are a lot of things going on that is why we should protect our home and our Mother.

We Can save our Earth by:

1. Conserving Water
2. Reduce
3. Reuse
4. Recycle
5. Plant a tree (Or 2)
6. Give up plastics

DID YOU KNOW?

EMAIL CARBON FOOTPRINT

A typical year of incoming mail for a business user - including sending, filtering and reading - creates a carbon footprint of around 180kg. That's equivalent to driving 320km in an average car.

WHAT CAN WE DO?

- Disseminate only relevant information.
- Disseminate information only to those that need to know it.
- Whenever you can, upload the documents to a cloud service and share the link to the recipients of the message.

Dhyan shetty, Dubai

Many people think that bitcoin is just a virtual coin used for trading. But do you know the truth about bitcoin mining and its effect on nature.

As you all might know a few weeks ago China and the CEO of Tesla, Elon musk had stopped the use of bitcoins for trading. This because of bitcoin mining. Bitcoin mining is a process performed using very sophisticated computers that solve extremely complex computational math problems to create a bitcoin. These computers take about 10 minute to create one bitcoin. Know you might be wondering how this affects the environment. Well, a single bitcoin transaction uses the same amount of power that the average household consumes in a month and is responsible for a lot of carbon emissions. Also, the higher its price goes, the higher the computer consumes electricity.

all right, the effect of bitcoins on the environment me and my team of friends are asking you to reduce the use of bitcoin. Happy environmental day and have good day.

Use all the earthly resources wisely and do not misuse it in order to save Mother Earth

Jeanne

We must keep our planet free
 Of pieces of trash and debris

With air that is clean and clear
 For the living to breathe every year
 So please reduce and reuse
 For earth that's ours to use
 by Nadine Abdel Rahim

Lysandria (Poems)

Mother Earth's Gifts
 By Kelly Roper

Mother Earth gives her gifts for all to share,
 She gives them freely, yet she's still aware
 That things are changing, perhaps for the worse.
 How much more can she give if our future is cursed?

It's way past time to put Mother Earth first,
 To clean up the water before we all thirst,
 To clean up the air before our lungs sicken,
 To renew the soil and feel it quicken.

How long until the point of no return?
 How much longer until we all finally learn,
 That to this task we all must rise.
 And stop abusing Mother Earth before she dies.

Mahi Shah

"Time spent among trees is never time wasted."

THANK YOU NOTE

Within the blink of an eye, a term has passed, and the world is still on its way back to normalcy. I would like to take this opportunity to reflect on the previous year and express my gratitude to everyone who contributed to the 2021 school newsletter. To begin with, I owe a special debt of gratitude to our beloved teachers for their unwavering support and contributions, which have been critical in maintaining the newsletter's high standards and rigour.

We would also like to express our heartfelt gratitude to Mrs. Linu, our computer instructor, for making this venture an exceptionally good experience for each and every member of the Editorial Board. I am also extremely indebted to our Editorial Board members, who played a critical role in ensuring a quick and effective editorial process upholding our publication's high standard. But without our authors, critics, and readers, we would not be where we are today. We have had the privilege of publishing truly exceptional, high-quality work of art, and we would like to thank all of our authors for entrusting us with their perspectives. Finally, I would like to thank our stakeholders as well, without whom we could not have made this issue a reality. Thank you very much.
